

GAME PRODUCTS

Game is a healthy, versatile and sustainable alternative to traditional meat products.

Soanes Poultry has formed a strategic partnership with a game processor to distribute a wide range of game products locally and to regional wholesalers. The range includes all game birds, venison, rabbit and hare plus boneless game bird meat. Pack options include retail and wholesale / catering packs and are available both fresh and frozen. Take a look at our extensive product range below. Other game is available on request and subject to availability.

Please call the sales office on **01377 217243** for more information or to place an order.
